Verstegen Pure

More and more sauces are earning the Verstegen Pure label. The products with this label contain no listed allergens, MSG or phosphates, and a minimum amount of salt. In the few instances when a sauce doesn't earn the Pure label, it's a conscious choice on our part, because the sauce would otherwise be missing an essential flavour component. After all, what would Oriental sesame sauce be without sesame seeds? Verstegen Pure is completely in tune with the trend towards an increasingly informed consumer and also with the new legislation on food labelling. Verstegen Pure allows you, the fresh food specialist, to easily answer the demand for responsible food options. With Verstegen Pure, we're proving that responsibility and taste can go hand in hand.
