## Sustainable Values

We are proud of our unique and sustainable collaboration with local farmers in the countries of origin. By using high quality technological solutions and applying optimal quality control, we can keep the chain from farmer to consumer fair, transparent and sustainable. See our sustainable programs that are helping make this happen.

**Blockchain** - More and more consumers need more information about the origin of ingredients, responsible nutrition and conscious cooking, Verstegen responds to this need with blockchain.

**Agroforestry** - Agroforestry is the sustainable agricultural method officially called "regenerative agroforestry". This method has different crops on the same piece of land that absorb Co2 from the air.

**SpiceUp** - SpiceUp makes geo information available to support 100,000 pepper farmers in Indonesia. This information is used to improve the quality and quantity of pepper production.
